

TSINGHUA-BERKELEY SHENZHEN INSTITUTE

TBSI
Tsinghua-Berkeley Shenzhen Institute

Tsinghua-Berkeley Shenzhen Institute (TBSI) was jointly established in 2014 by Tsinghua University and the University of California, Berkeley (UC Berkeley), with the full support of Shenzhen Municipal Government. Its mission is to pursue interdisciplinary research, international education and industrial partnership, and it is committed to cultivating collaboration between academia, industry and government.

A faculty team of principal investigators

- Tsinghua University **30**
- UC Berkeley **30**
- Recruited globally **40**

Three interdisciplinary centres

- Environment Science & New Energy Technology (6 Labs)
- Data Science & Information technology (6 Labs)
- Precision Medicine & Healthcare (5 Labs)

FACULTY RECRUITMENT

Position Rank

Professor/Associate Professor/Assistant Professor in three centers of TBSI.

Competitive packages:

Annual salary
400,000-1,200,000 RMB (pre-tax)

Research start-up package

1,000,000-10,000,000 RMB (depends on entry level and other factors)

Relocation allowance

200,000-400,000 RMB (pre-tax)

Government Talents' Plan allowance

TBSI offers assistance to faculty and researchers applying for Shenzhen Government-sponsored talent plans and other Shenzhen high-level talents plans that offer allowances of up to 3,000,000 RMB.

Administration support

Each lab will be supported by one secretary and one technician.

Student and postdoctoral recruitment

If applicable, faculty members may apply for TBSI-funded researchers (typically one postdoctoral fellow, one doctoral student, and several master students).

Qualifications:

- Applicants must hold a doctorate or equivalent degree.
- Research experience across various fields and institutions is strongly preferred.
- Members of the Thousand Youth Talents Plan or the Thousand Talents Plan are especially favorably regarded.
- Ideally, candidates should be able to demonstrate strong communication, teaching and leadership skills in English as well as the ability to actively contribute to the rapidly growing research efforts at TBSI.
- A strong commitment to teaching and supervising postgraduate students is essential. Teaching responsibilities will include participating in and developing graduate courses, and strong engagement with TBSI's core curriculum. Supervision

of PhD and MSc students and academic advising of trainees at all levels are also expected.

Application

To apply, e-mail the following documents to hr1@tbsi.tsinghua.edu.cn with the subject line "lab number - job title - full name of applicant". Applications will be considered on receipt until the position is filled.

1. Curriculum vitae (including a list of publications)
2. Application form (Please download the form from TBSI's website at <http://www.tbsi.edu.cn/jobs>)
3. PDF copies of five representative publications

All documents will be treated confidentially.
