## **Acknowledgements**

The authors are grateful for input and insights provided by the roundtable participants listed as signatories to this comment. Thanks also to Claire Davis at IFPRI for preparing an early draft of the roundtable proceedings. The roundtable was organized by the Gender, Climate Change and Nutrition Integration Initiative (GCAN) with support from the Bureau for Resilience and Food Security at the United States Agency for International Development.

## **Methodology for US\$40 billion funding estimate**

The article mentions that “The World Bank, the G7 group of the world’s largest developed economies, the European Union and the United States have collectively pledged more than US\$40 billion to avert food and humanitarian crises.” This estimate was compiled by the authors from several sources. Here are links to some of the funding announcements on reducing the global food crisis linked to Russia’s war on Ukraine and other crises:
